### ***How-to edit Files:***

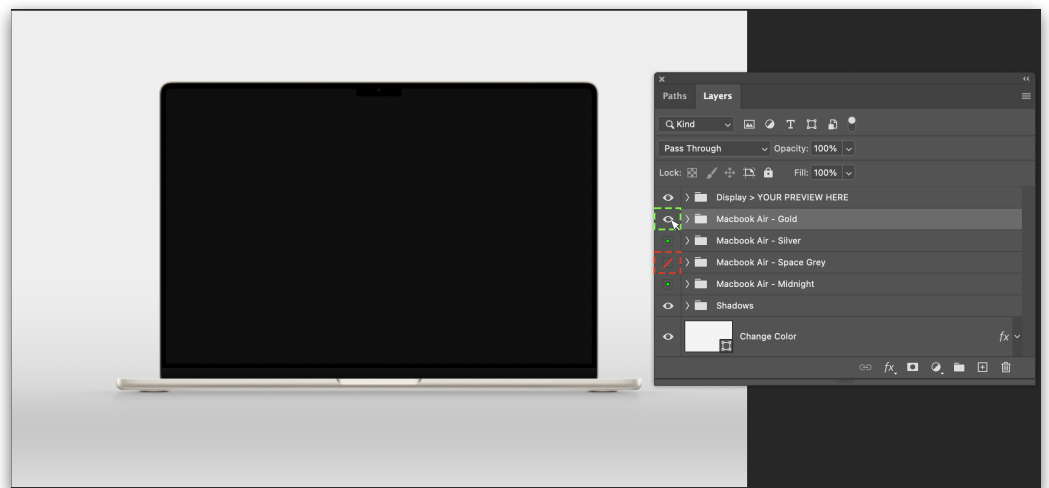

This product requires Adobe® Photoshop® CC for any editing purpose.

**Layers main view:**

***How to change the laptop color via smart-layer:***

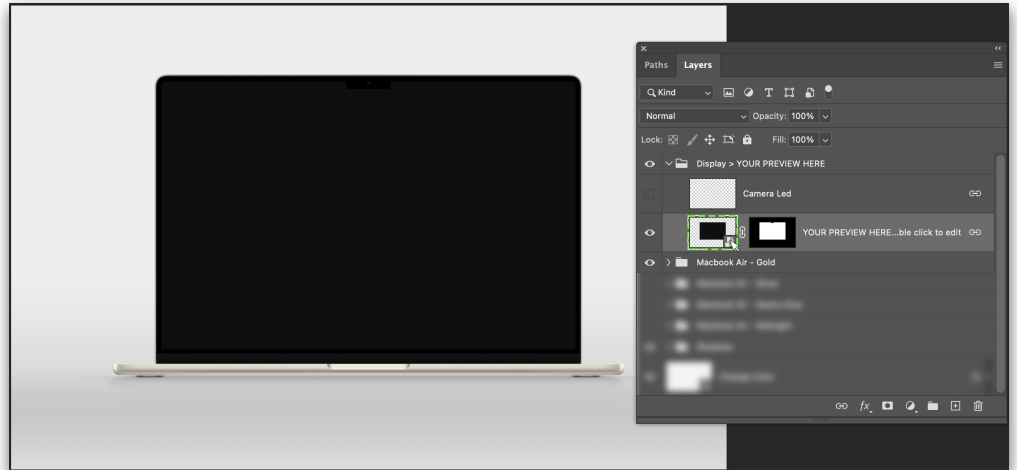

Navigate through the main layers panel, disable the unwanted color by clicking on the Layer Visibility (eyeball icon) to deactivate the unwanted color, then activate your favoured finish.

*Continues on next page*

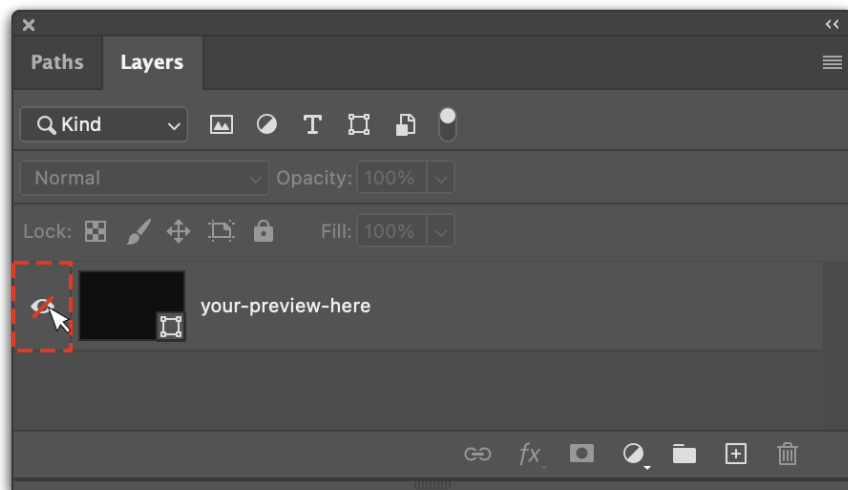

### ***How to place your design via smart-layer:***

Navigate through the main layers panel, expand the **“Display > YOUR PREVIEW HERE”** folder and *Double-click on the smart layer “YOUR PREVIEW HERE - Double click to edit”*.

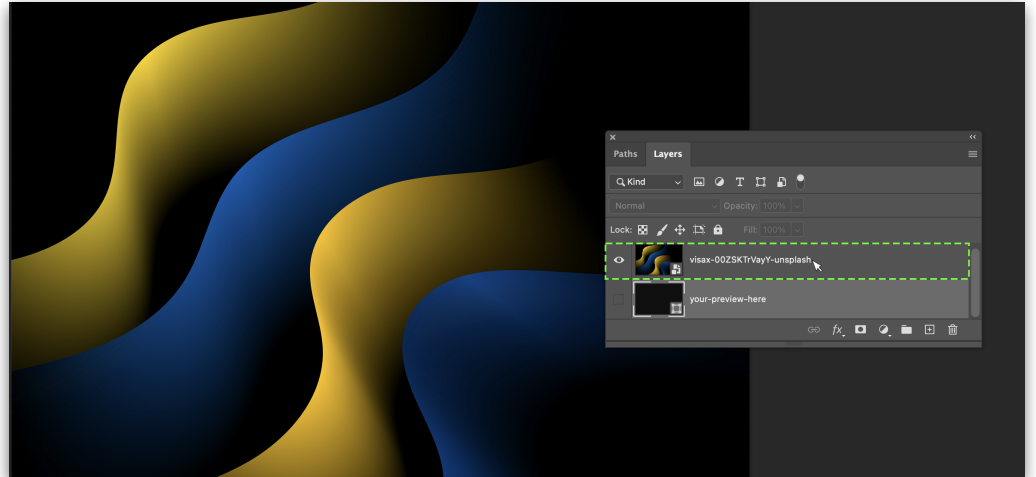

### **◆ Place your artwork:**

Once opened the smart layer, click on the Layer Visibility (eyeball icon) to deactivate the **“your-preview-here”** layer.

*Continues on next page*

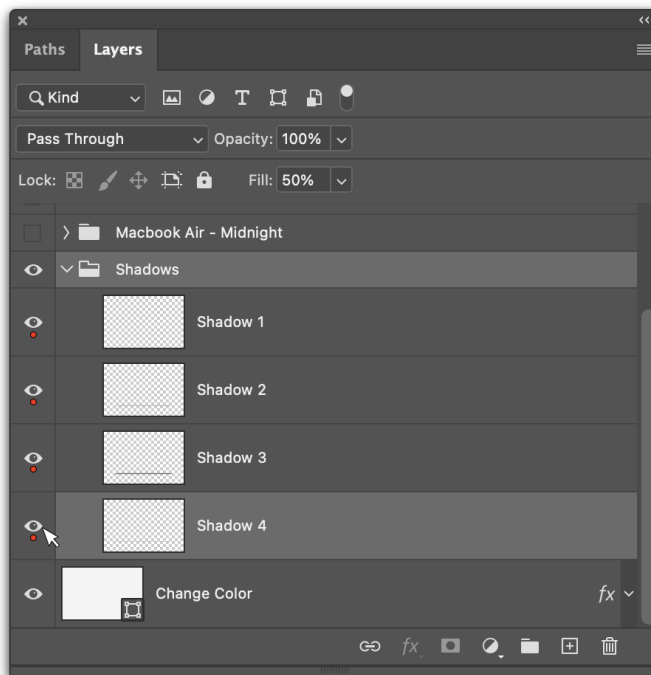

Once the layer is hidden, place your design on top, as shown;

Now hit *Cmd+S* (MacOs) or *Ctrl+S* (WinOS), and switch back to the main tab of this mockup, your design has now been saved.

### **How to activate/deactivate shadows:**

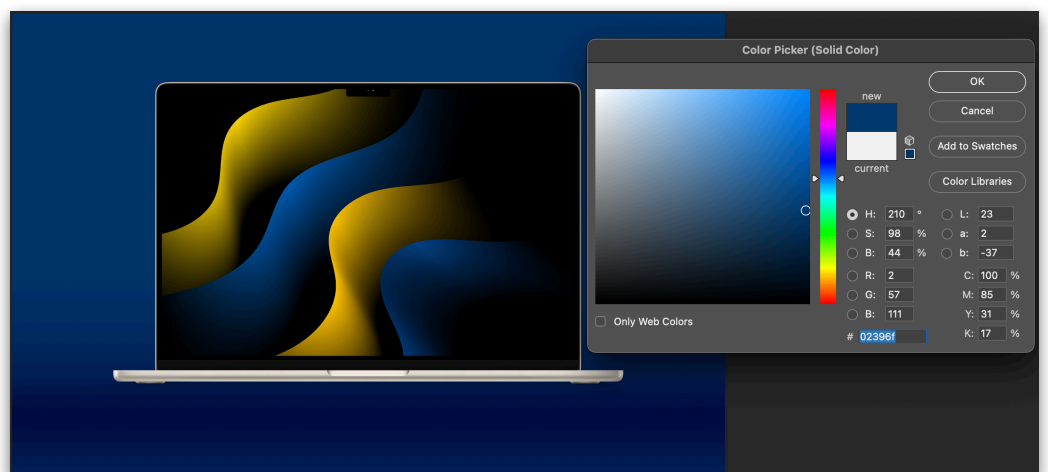

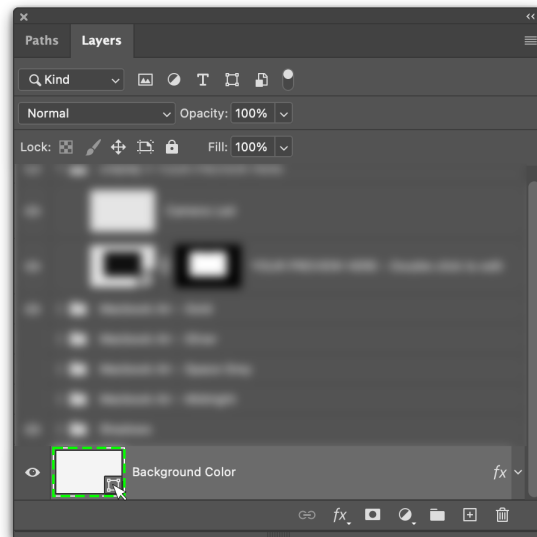

Navigate through the main layers panel, then expand the “**Shadows**” folder. Simply click on the Layer Visibility toggle box to activate or deactivate any included shadows.

*Continues on next page*

### ***How to dispenser color:***

*Navigate through the main layers panel, then double-click the layer named “Background Color”, as shown and select your favored color.*

*Hit Ok, your favored color has been applied to the background.*
