LICENSE

This mockup is free for personal or commercial use. Use it as you like for yourself or a client. You can modify it for any project, but do not redistribute and resell it! No attribution or link back to www.behance.net/elenazakharova or [@lenazakharova.studio](https://www.instagram.com/lenazakharova.studio), but I appreciate it.

Thanks for downloading this product.

Let me show you how to use it. It's simple so that you can create a presentation of your work in seconds. Let's start!

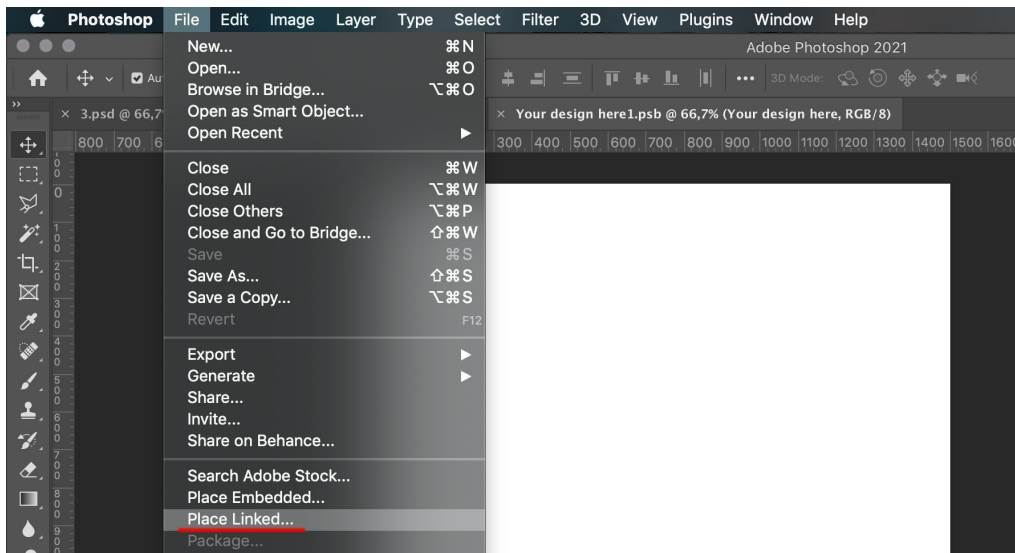

HOW TO PLACE YOUR DESIGN INTO A PSD MOCK-UP

Watch instructions on [YouTube](#).

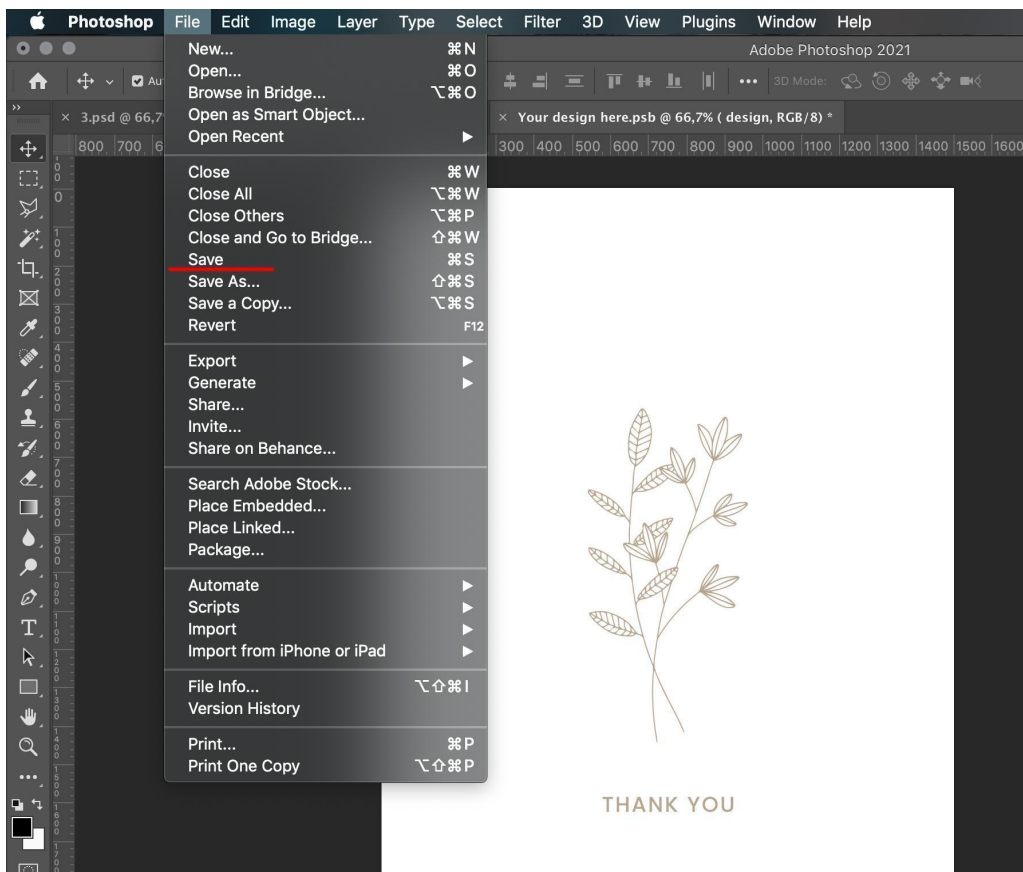

1. Open the PSD file in Photoshop. Double-click on the thumbnail of the 'Your Design Here' layer in the Layers palette. It is highlighted in red. If you don't see it, open the folder. Photoshop will open a new document in a new window.

2. Click File > Place Linked and navigate to the file on your computer. Later, if you make any changes in the file with your design, it'll be updated in mockups. Want to place your design as embedded? Just drag and drop it into the window you just opened.

3. Scale your design as you want. Go to File, then click Save or Ctrl+S (for PC) or Cmd+S (for Mac). Then close this tab. Now your image is placed into the mock-up.

Make sure you follow my shops:
