

SNIPESCIENTIST

==== FONT DOWNLOAD LINKS ====

Thank you very much for purchasing my Resume Pack.

Please read the **Extended Help File.PDF** very carefully for font installation and other product related questions for this resume. The fonts are free to download and 100% safe for your computer. Please understand the fonts you are going to download for this resume, might have font families. So you have to **download and install all the font families** for the perfect use of the resume template. As I didn't make those fonts, I can't include them into this resume pack.

For example: if you download the font named "roboto" you will find a number of font families with the single zip download as roboto light, thin, regular, italic, medium, bold, black and more. You must have to install them all. Without installing the fonts the resume texts might be broken. Please click on the links below, or copy and paste them into your browser to find free downloads of the necessary fonts. Please ignore any warning message appear at the time of installing.

DIRECT FONT DOWNLOAD LINKS (PLEASE DOWNLOAD & INSTALL ALL FAMILIES)
